Reference Standards Highlights

Below are several Tables with the latest Reference Standard information including out-of-stock items now available; new Reference Standards released in May 2015; backordered items with estimated availability dates; items that have a new price and/or have a new package size; items with lots that are (or soon will be) no longer valid; and items with new lots since the last email notice.

Please contact your USP Customer Service Representative to place an order at +1-301-881-0666 or 1-800-227-8772. European customers can call 00-800-4875-5555. You can also order online at www.usp.org/products.

An expanded list of [USP Reference Standards Under Development](#) has been posted to the USP website. The expanded list now includes new **USP Reference Standards that we expect to release within a year**. The list will continue to be updated four times per year and was **updated April 6**. The list is organized by calendar quarter, and can be downloaded as an MS Excel (xls) spreadsheet.

The Reference Standards Release Notification Service can be used to notify you when a new never-before-released Reference Standard becomes available. The Notification Service does not communicate the release of back-ordered items or lot changeovers. To participate, fill out the form online at www.usp.org/reference-standards/find-reference-standard/notification-service.

RS Lots That are No Longer Valid

These Tables list previous RS lots that are (or will soon be) no longer valid for official use. If you still have any of these materials on hand, do not use them for compendial testing purposes after the last day of the month for the valid use dates listed. To test products, always be sure you use a current, valid lot of USP RS. Current lot numbers and valid use dates for previous lots are available in the USP Store online [here](#) using the Reference Standards: Alphabetical Listings to look up the item of interest.

Tip of the Month

A Key Issue at USP is keeping monographs current and capable of reliably characterizing the identity, strength, quality and purity of compendial items. In fact, we refer to that ongoing effort as Monograph Modernization.

USP has embarked on a global initiative to modernize many of our existing monographs across all compendia. Do you have a particular monograph you would like to see modernized? Please follow the link below and find what priority we have given many monographs in the modernization project. You may also check status of all the prioritized monographs and learn more about how you can participate in modernizing your own priority item(s).

<http://www.usp.org/usp-nf/development-process/monograph-modernization>

Question of the Month

Where can I find the newly revised Pending Monograph Guideline official June 1, 2015?

USP has developed a new version of its Pending Monograph Guideline, which reflects substantial changes to eliminate the use of a separate web-based process for Pending Monographs. Instead, monograph proposals pending FDA approval will utilize the standard *USP–NF* revision processes. You can find information at <http://www.usp.org/usp-nf/pending-monographs/changes-pending-monographs-program> and the Guideline at http://www.usp.org/sites/default/files/usp_pdf/EN/USPNF/pendingStandards/2015-06-01-pending-monograph-guideline.pdf.
